

The exact time of death and birth time correction

Cemal Cicek

29 April 2018

"Everything is determined, the beginning as well as the end, by forces over which we have no control. It is determined for the insect, as well as for the star. Human beings, vegetables, or cosmic dust, we all dance to a mysterious tune, intoned in the distance by an invisible piper."

Albert Einstein

The Rules :

1-The Time of Death : It must be in harmonic 262144.

$$\text{♂ } t / \text{♂ } t = \odot t = \odot n$$

This equation lasts only one second. And for the same person it repeats every 4 or 5 minutes approximately when mars or saturn are not slow,retrograde or stationary. If death time is accurate to 5 minutes, you can correct the death time and birth time to the second.

If death time is known for the hour, then you have to correct the birth time and death time with progressions (with higher harmonics) , especially tertiary and minor, and then use this method to find death and birth times to the second.

2-Sidereal zodiac (Krishnamurti Ayanamsa).

23°45'56" for Year 2000. Speed of precession is 50.2388475.

3- Accuracy: We will still be able a lot to discover, if we correct the birth time in seconds. It's about astrology. It's not about the egos claiming that their correction is better than others.

Example :

When Diana, Princess of Wales married, was her tertiary sun on 0° 0' 36'' in harmonic 4096 and her natal VE/MN is on 0° 3' 14'' difference was 0° 2' 38'' .The 0° 2' 38'' is an **exact harmonic point**. That means her tertiary sun with natal VE/MN was exactly harmonic. Therefore, we know that the birth time (approximately 14:00) is correct no matter who, what says.

And nobody can trick this astrological system.

In the harmonic 4096 you can tolerate 1 second.

4-Progressions Keys : The progression keys that astrologers have used so far, a tropical day equals a tropical year, is wrong. To be able to see that clearly, one needs first; sidereal zodiac, second; at least harmonic 4096.

But as I wrote above, when it comes to not astrology, or you work with tropical zodiac, or with just normal 360 ° horoscope, then my work is not for you. You can continue like so far. Do not let it bother you. Just ignore it unless you empty first your cup. 📄

Right keys : 📄

Tertiary I : 1 sidereal day = sidereal month (27.321661 days)

Rate : $0.99726966 / 27.321661 = .036501062655012$

Tertiary II (Minor) : 1 sidereal month = 1 sidereal year

Rate : $27.321661 / 365.25636042 = .074801328493181$

Secondary Progression : 1 sidereal day = 1 sidereal year

Rate : $0.99726966 / 365.25636042 = .002730327978008$

I have given examples here :

<https://de.scribd.com/document/351721690/Progressions-in-Astrology>

I could there shown with thousands of examples. But I know that it does not work, for those who do not want to see, hear and understand.

5-Progressions :

Secondary, tertiary, minor and converse are used.

6-Transit, Solar, Lunar, Progressed Lunar are used.

7-Last New Moon before the event.

One can take last moon phase before the event too.

In this work, I will explain with 4 examples in detail how to proceed.

Winehouse, Amy

14 September 1983 at 22:25 (= 10:25 PM)Enfield, England, 51n40, 0w05

British singer.

Death by Accident 23 July 2011 at 3:54 PM in London (alcohol poisoning)

https://www.astro.com/astro-databank/Winehouse,_Amy

Minor (Harmonic 4096)

Winehouse, Amy

14 September 1983 Wed 22:25 (GMT+1) 51n40 0w05
Enfield, England

Sidereal (23°45'56", 50.2388475")

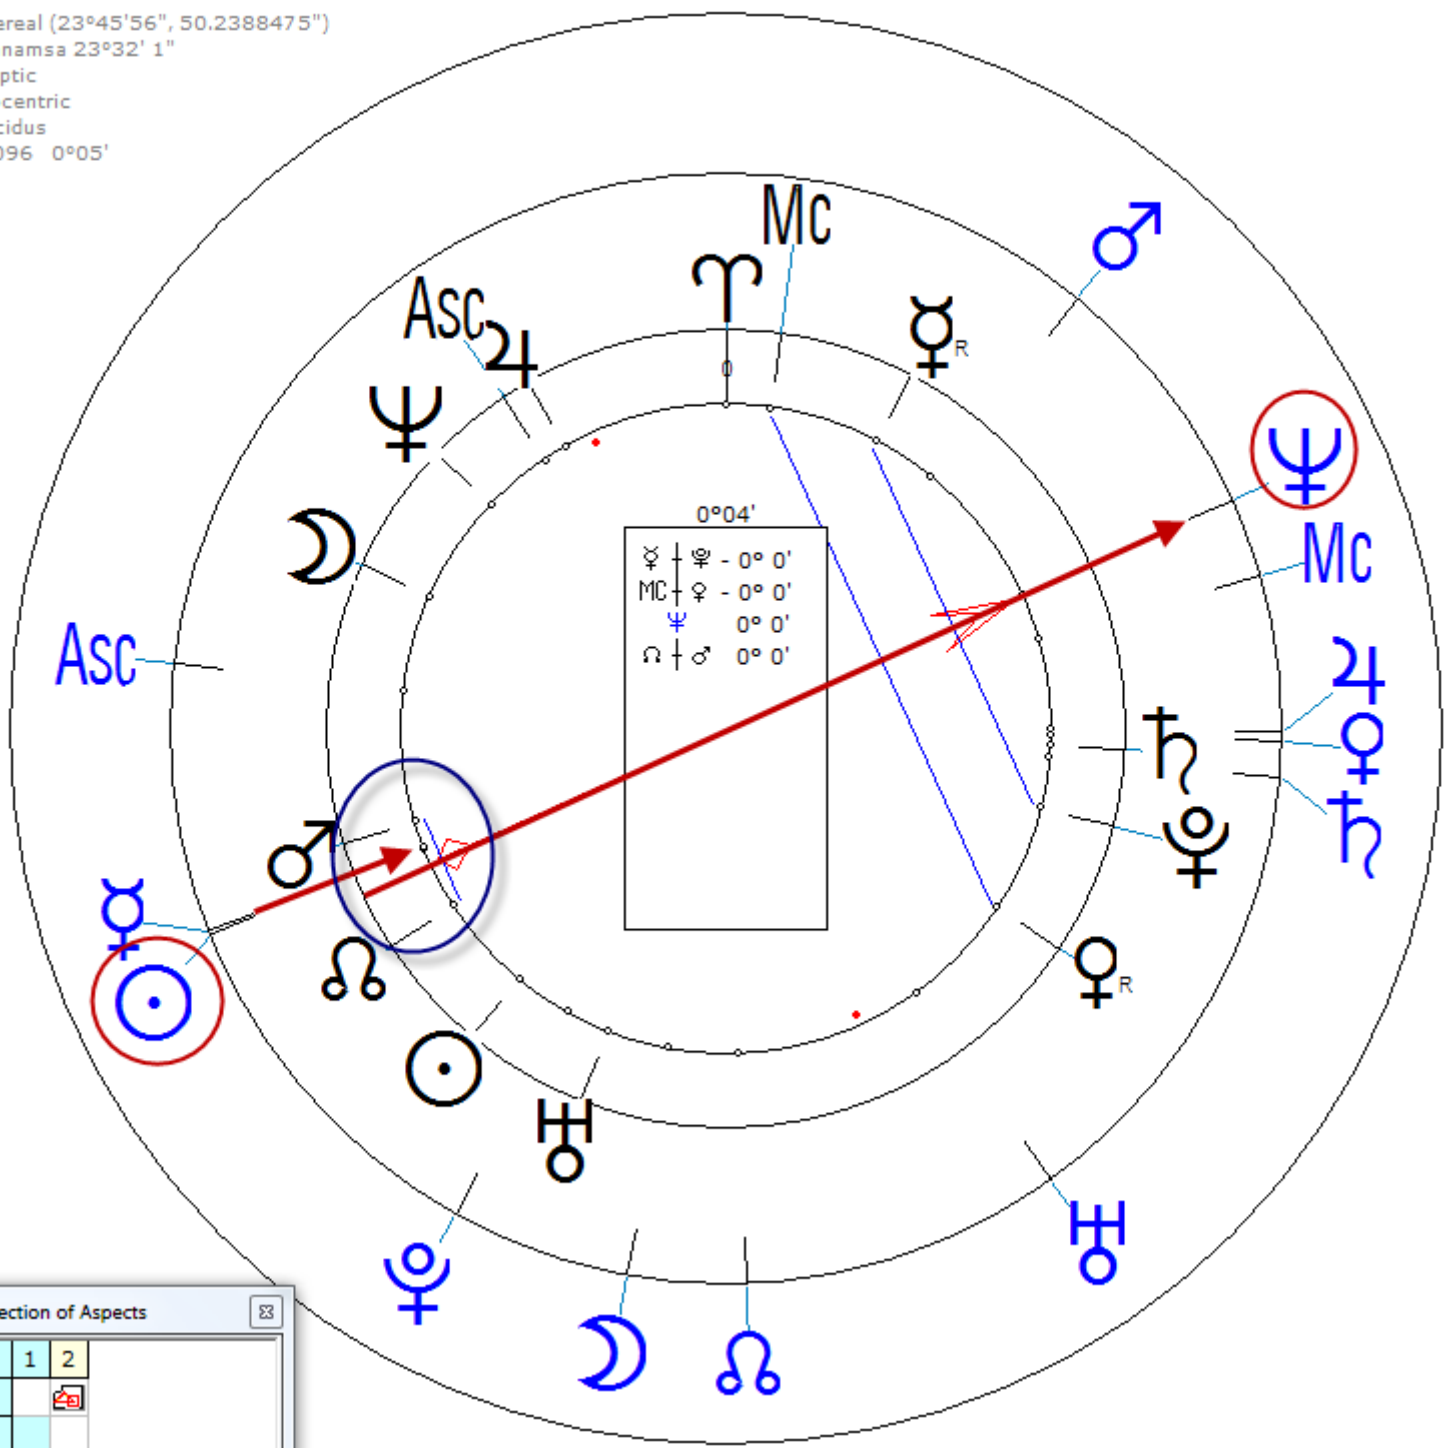

Ayanamsa 23°32' 1"

Ecliptic

Geocentric

Placidus

H4096 0°05'

We have to look through all the progressions to get a first impression of whether the correction takes just 1-2 minutes or less than 1 minute. First, I show Minor Progression with the 22:25 birth time. Sun and Neptune above are not exact. If you think that the cause of death was alcohol poisoning then the sun and Neptune would have to be exact. Depending on the type of death we should pay attention to the planets that can be considered.

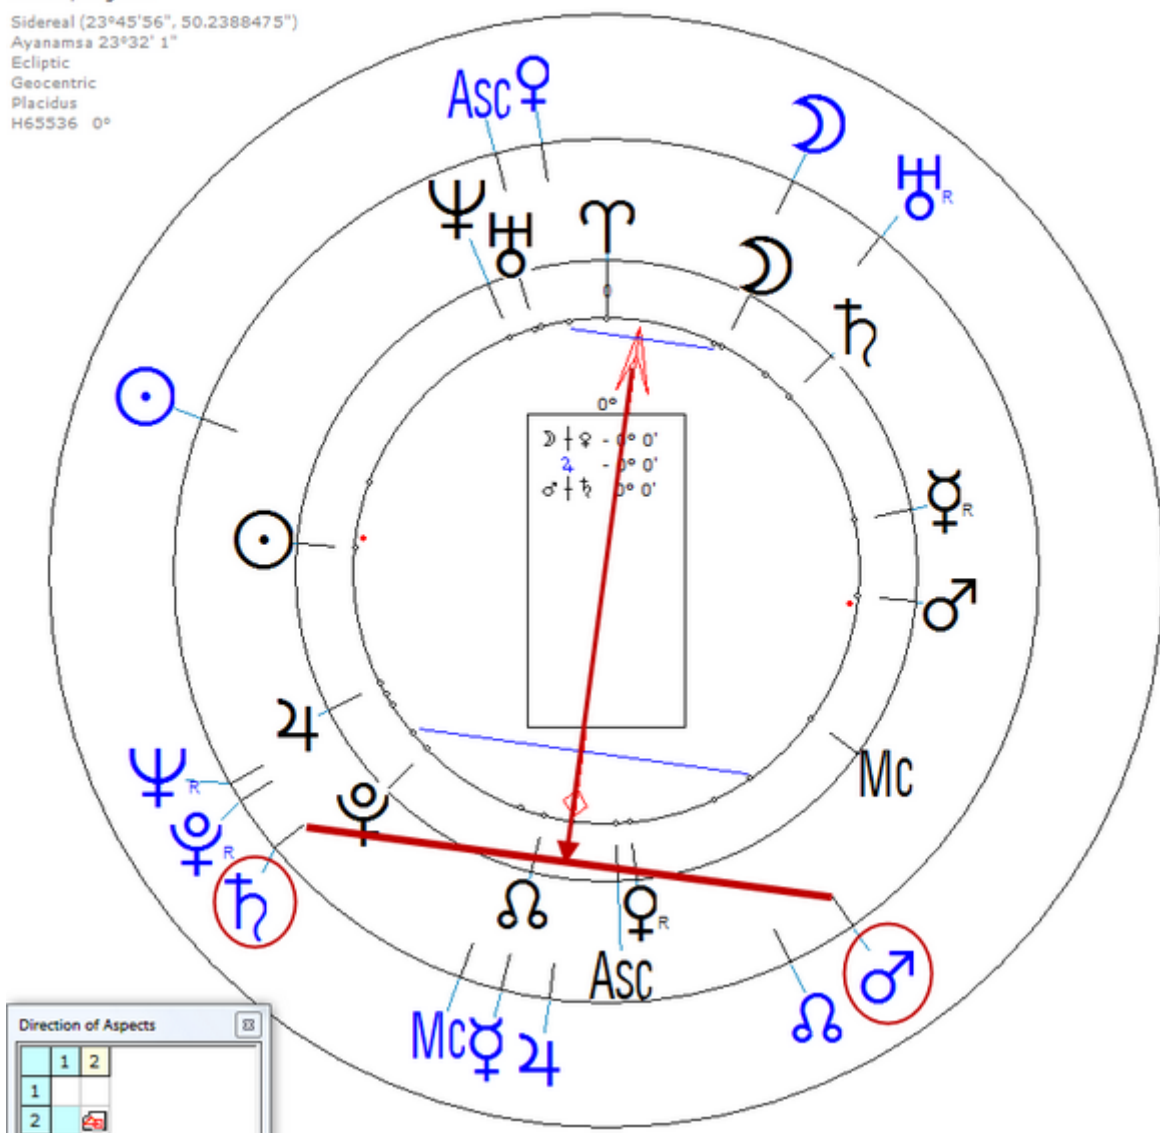

$$\Psi_p = 0^\circ 4' 19'' - 0^\circ 2' 38'' (\text{exact harmonic point}) = 0^\circ 1' 41''$$

$$\odot_p = 0^\circ 1' 38''$$

The discrepancy between Sun and Neptune is 3 seconds and unacceptable. But the correction will be less than a minute. Therefore we can use our equation
transit MA/SA = transit SU = natal SU (harmonic 65536)

Winehouse, Amy
14 September 1983 Wed 22:25 (GMT+1) 51n40 0w05
Enfield, England

Sidereal (23°45'56", 50.2388475")
Ayanamsa 23°32' 1"
Ecliptic
Geocentric
Placidus
H65536 0°

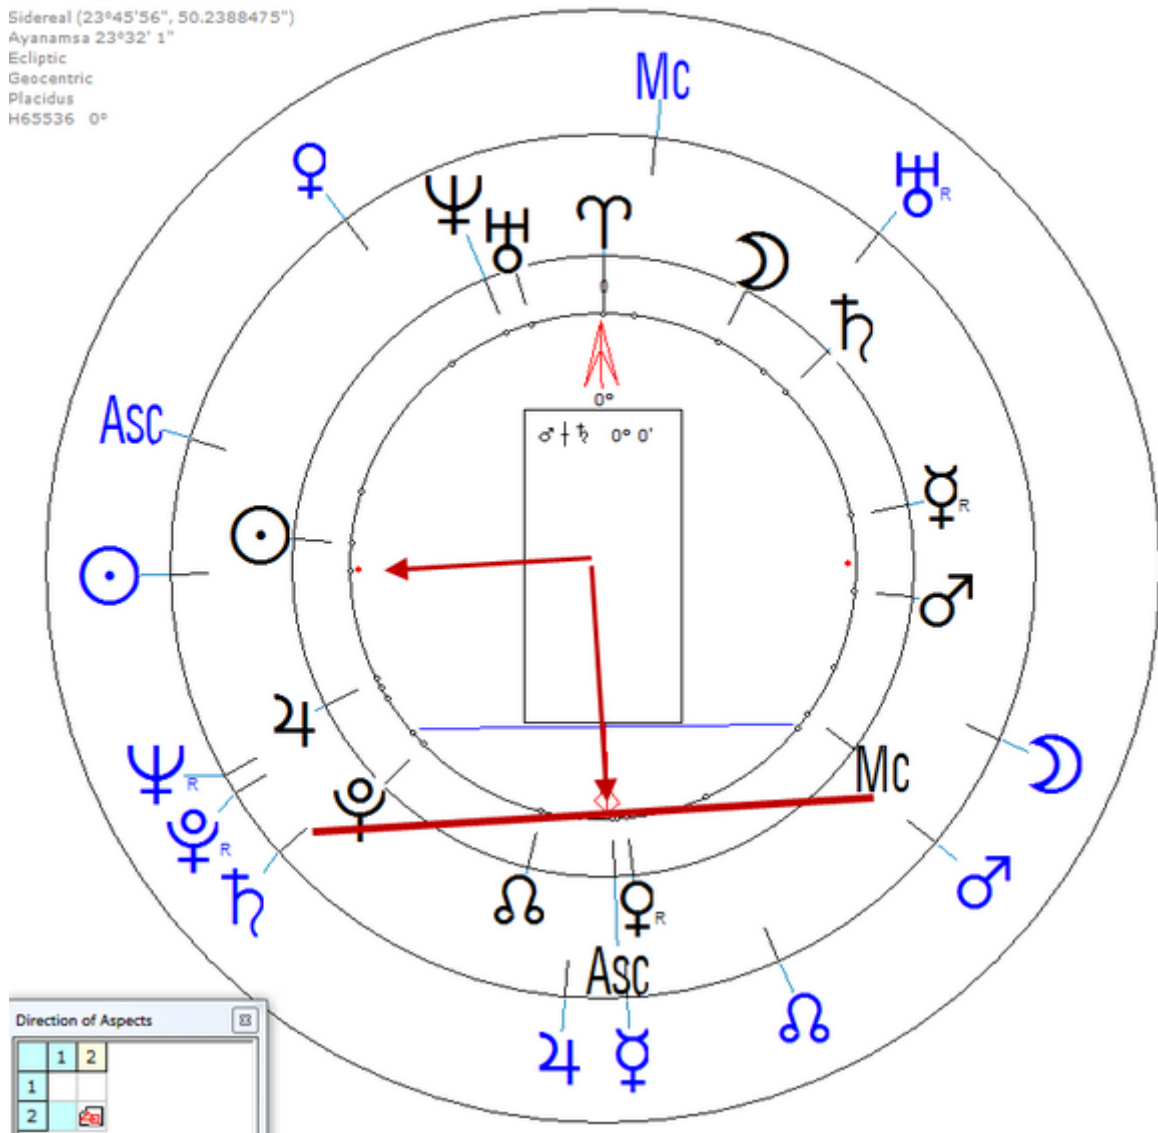

Because the transit sun with MA / SA is not exact , we need to run transit sun left around (since the correction should be less than a minute) until transit SU = MA / SA is.

Below after 30 seconds (15:54:30) transit SU = transit MA/SA natal SU

Winehouse, Amy
14 September 1983 Wed 22:25 (GMT+1) 51n40 0w05

Ayanamsa 23°32' 1"
Ecliptic
Geocentric
Placidus
H65536 0°

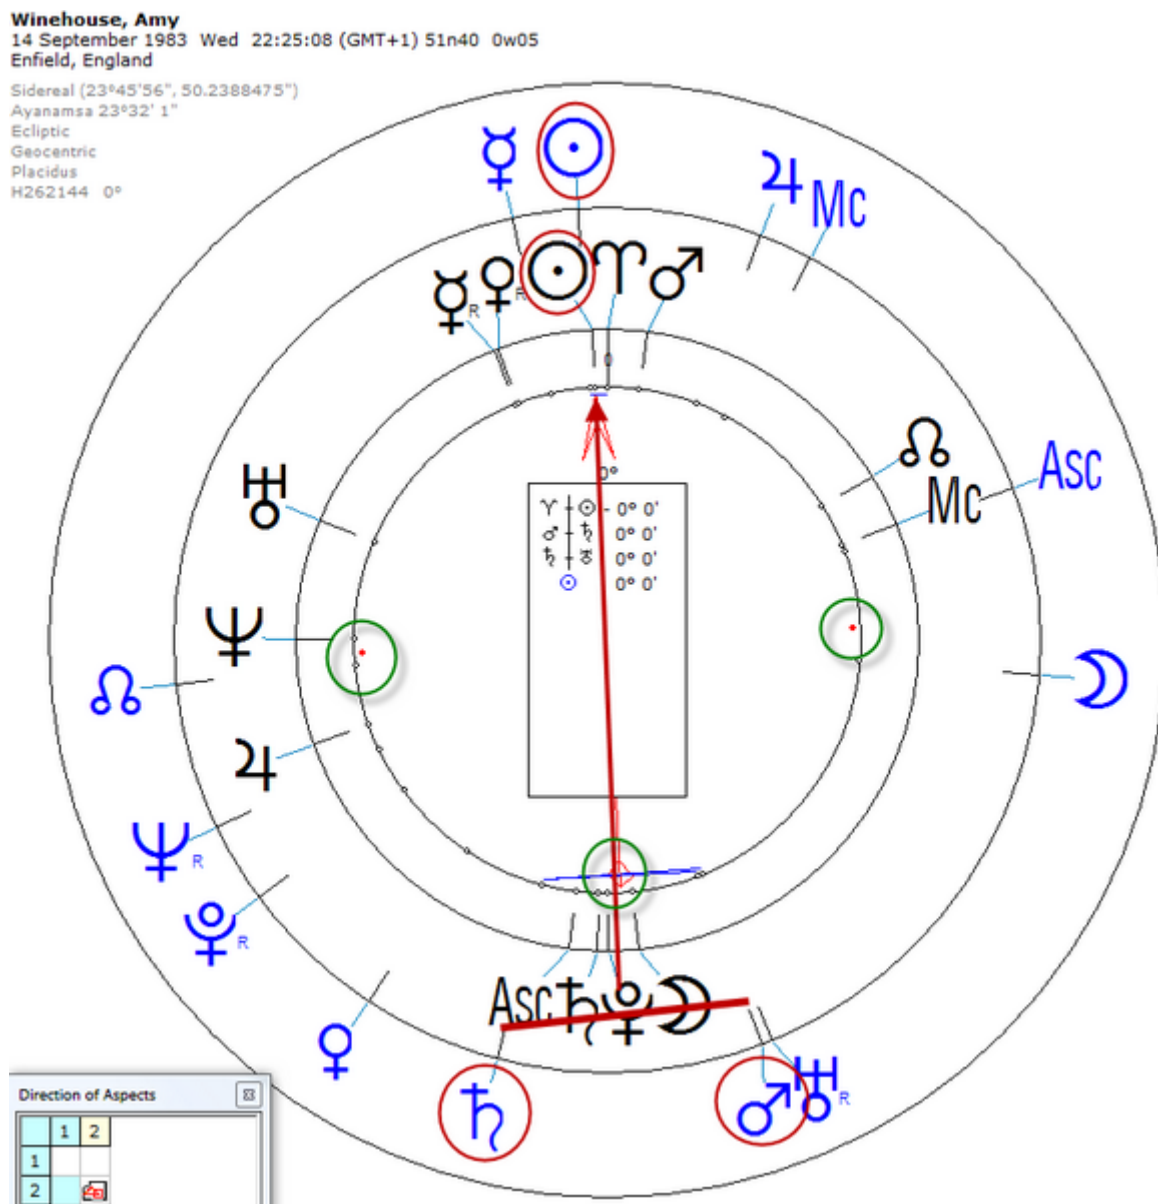

If we correct the birth time to 22:25:08 then that would be transit SU = transit MA/SA = natal SU

Harmonic 262144 :

This harmonic 262144 has a time window of 2 minutes. Between red points (marked in green) is about 30 seconds. That is, we have four possible birth times when running left around with the sun .

The first possible death time would be 15:54:30. The first possible birth time is 22:25:08 for this death time , second possible birth time 22:25:38, third possible birth time 22:26:09 and fourth possible birth time would be 22:26:39

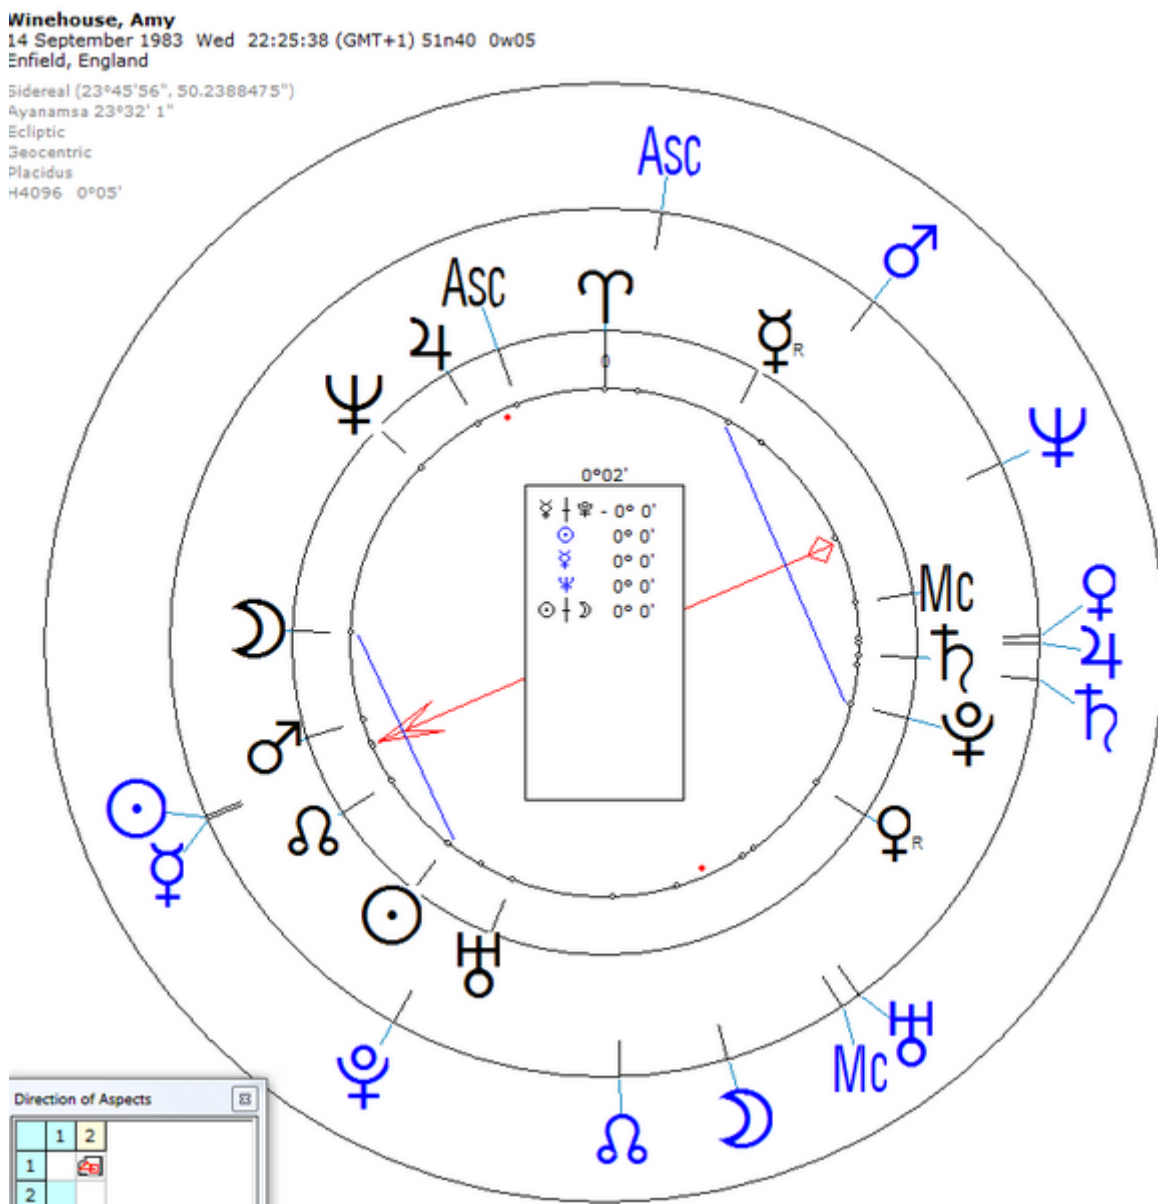

After we have possible birth times determined , we must check these possible times with the progressions, which comes in question as a proper birth time.

We use harmonic 65536 for this. But let's look at harmonic 4096 minor progression.

Minor (h-4096)

If we take the second possible birth time 22:25:38, it is better than 22:25:08

Harmonic 65536

If we take the first possible birth time 22:25:08 :

progressed Lunar Return

☉_p ♂_n / ♄_n

Geocentric

Placidus

H65536 0°

Harmonic 65536

If we take the first possible birth time 22:25:08 :

Secondary converse

$$\odot_p = \text{♀}_n = \text{♂}_n$$

It's about death not marriage, that's why this possible birth time is wrong.

Winehouse, Amy

14 September 1983 Wed 22:25:08 (GMT+1) 51n40 0w05
Enfield, England

Sidereal (23°45'56", 50.2388475")

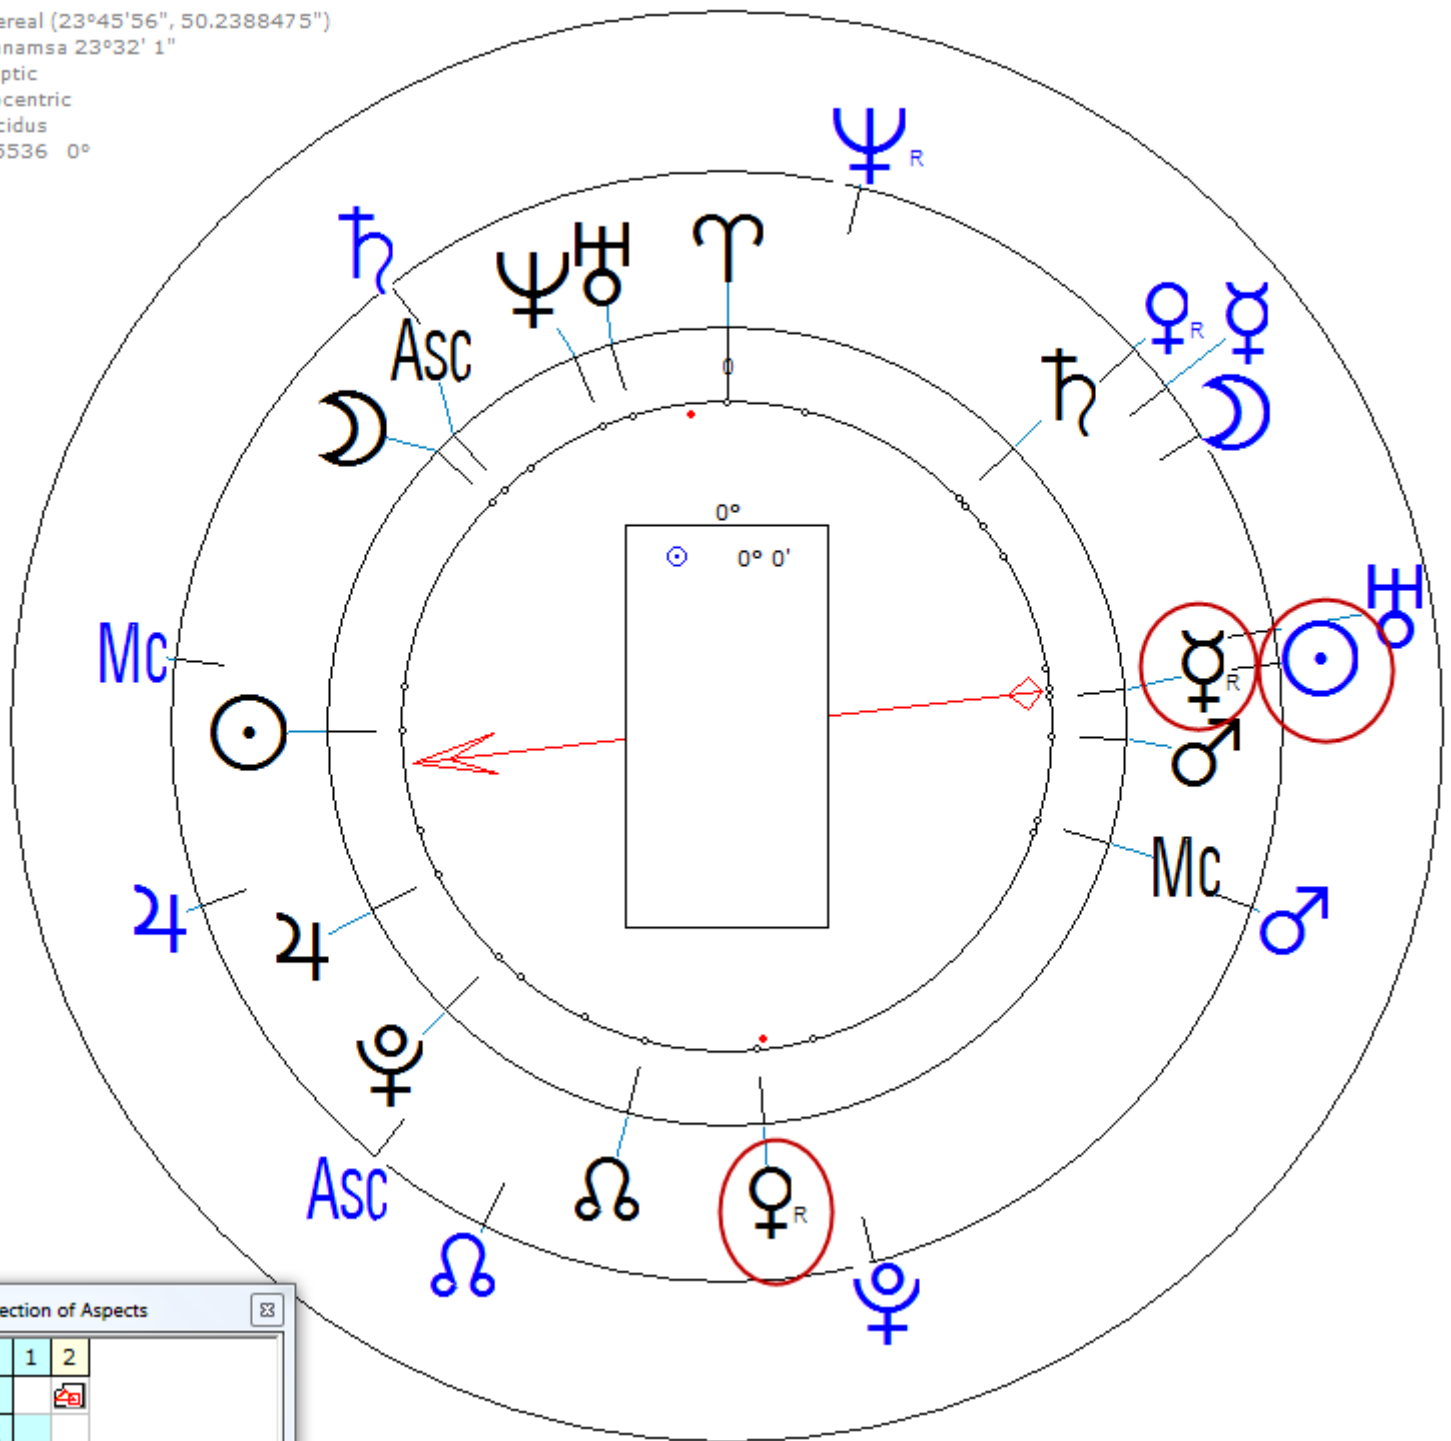

Ayanamsa 23°32' 1"

Ecliptic

Geocentric

Placidus

H65536 0°

Harmonic 65536

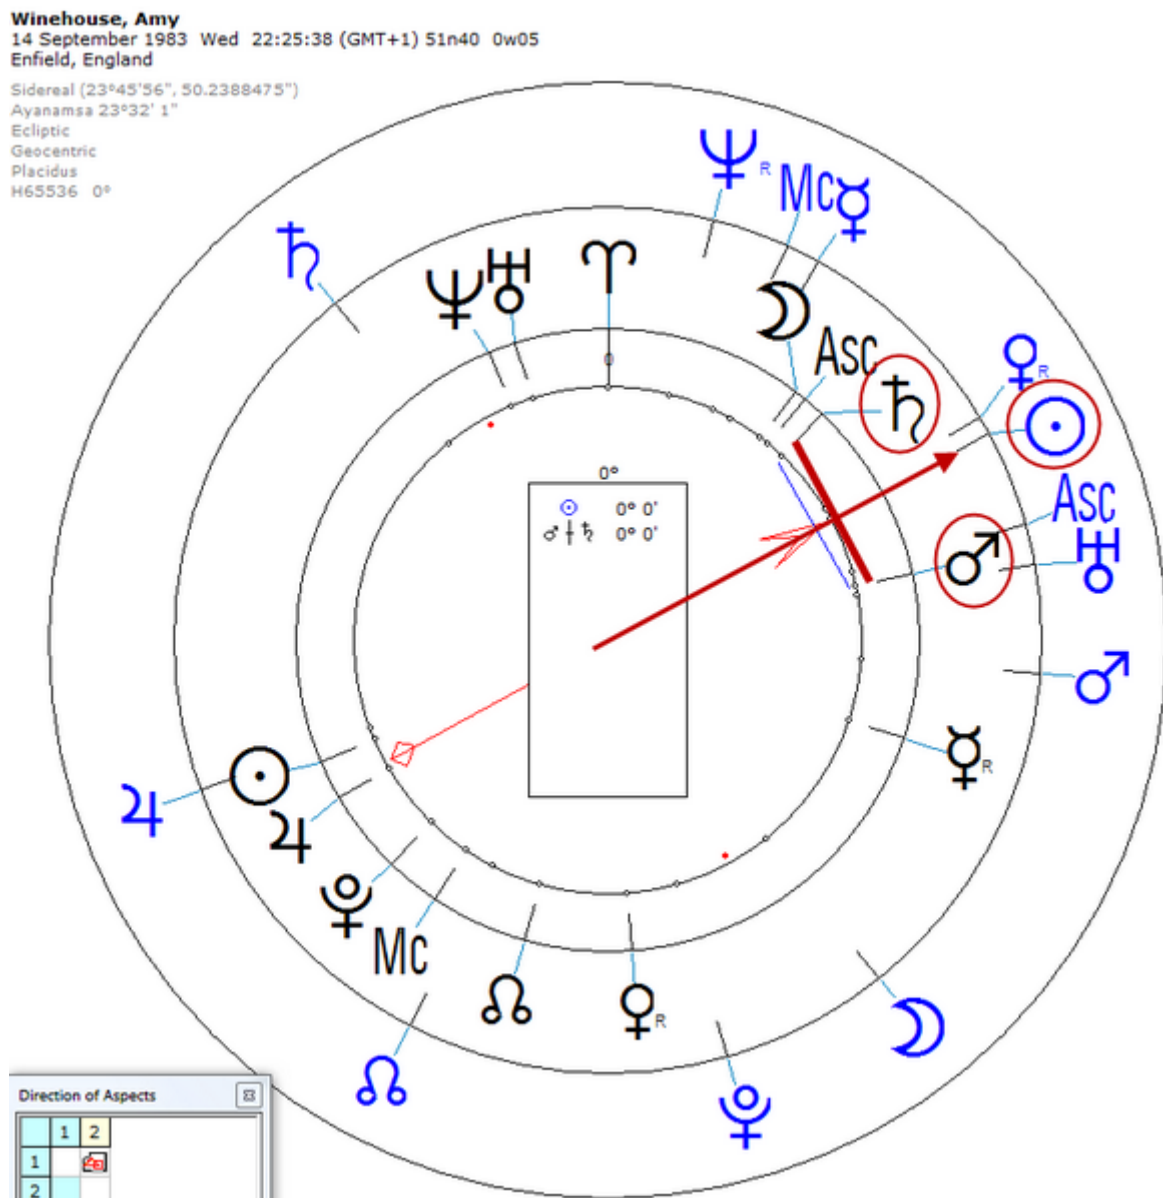

If we take the second possible birth time 22:25:38 :

Secondary converse

$$\odot_p = \♂_n / \text{♄}_n = 4_n$$

$$4_p = \odot_n$$

This interaction between the Sun and Jupiter also shows that this birth time is correct, because Jupiter is in the natal between MA/SA.

Last new moon before death :

1.07.2011 9:53:55 GMT+1 15°16'32"Gem New Moon (Partial Solar Eclipse)

Harmonic 65536

We see transit Jupiter again with transit AC between natal MA/SA

Lunar Return (harmonic 65536)

Lunar ♀/♌ (Marriage) = ☉_n = ♀_n (ends with divorce)

When divorce was granted on 16 July 2009, (not illustrated)

was Lunar ♀/♌ = ♀_n/♌_n = ♀_n and Lunar ♀ = ☉_n = ♀_n
 when the divorce became final on 28 August 2009, (not illustrated)

was Lunar ♀/♌ = ♀_n/♀_n

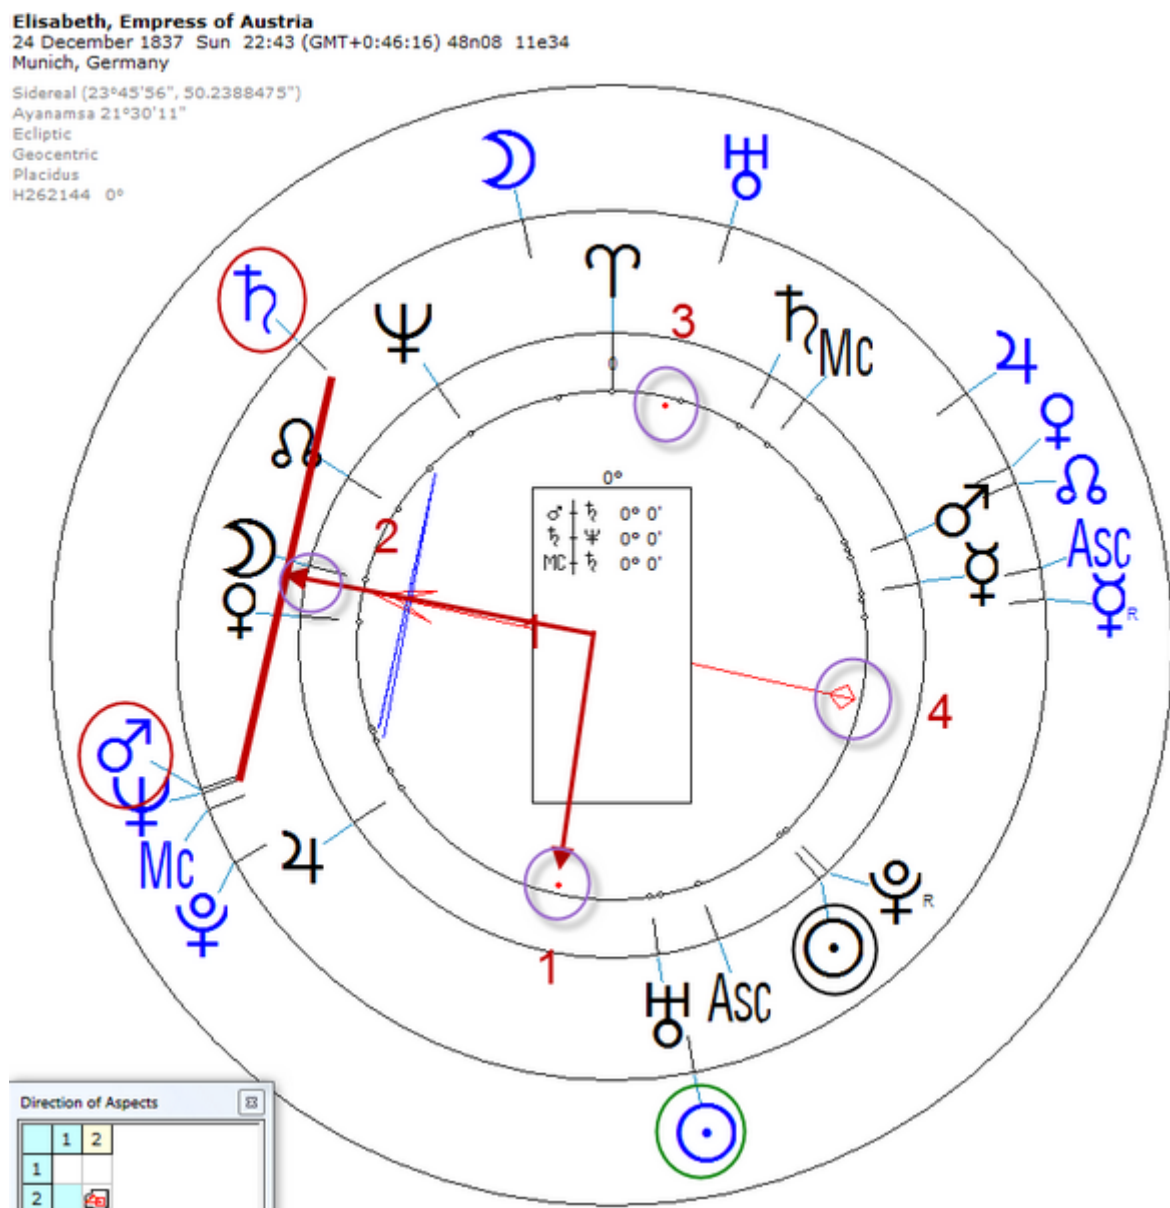

Elisabeth, Empress of Austria

24 December 1837 at 22:43 (= 10:43 PM)Munich, Germany, 48n08, 11e34

Death by Homicide 10 September 1898 at 1:15 PM in Geneva (Stabbed)
https://www.astro.com/astro-databank/Elisabeth,_Empress_of_Austria

Transit of the time of death 13:15:00 (Harmonic 262144)

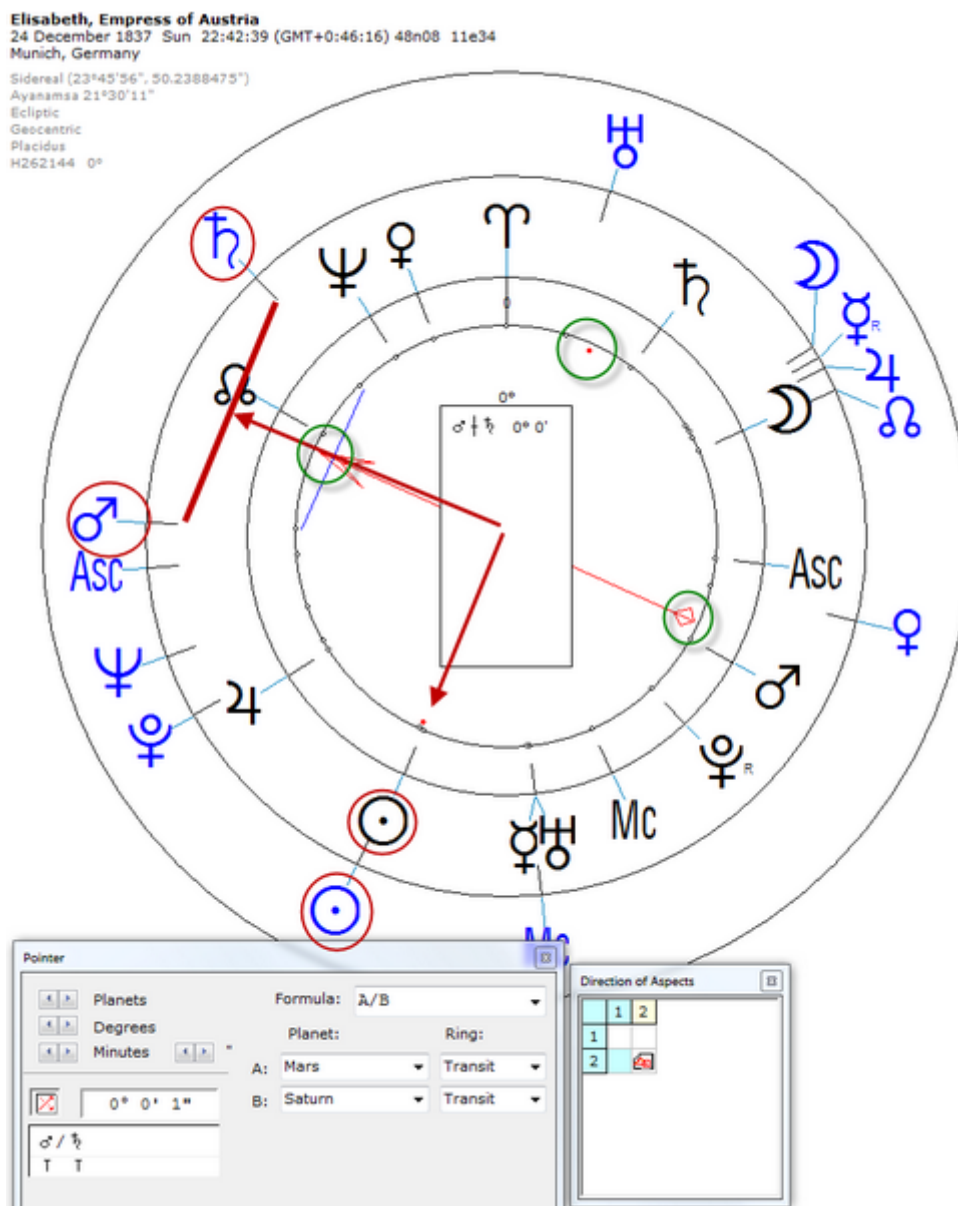

The birth time seems to be exact. That's why we look at the Harmonic 262144. In the next step we will bring the transit sun (highlighted in green) to the 1st point. The pointer is set to transit MA/SA.

After we have brought natal sun on the exact point too :

$$\text{♂}_t / \text{♂}_t = \odot_t = \odot_n$$

The first possible death time would be 13:14:48. For this death time the first possible birth time 22:42:39, second possible birth time 22:42:10, third possible birth time 22:41:41 and fourth possible birth time would be 22:41:11

If we take second possible birth time 22:42:10 and look at solar:

First : it is very noticeable that the death planets Mars and Saturn each other ,to natal Saturn and to Solar AC exact.

Second : Solar MC = natal ♂ = natal ♄ = ☾

Third : Solar ☾ = natal ♂/♄

Placidus

H524288 0°

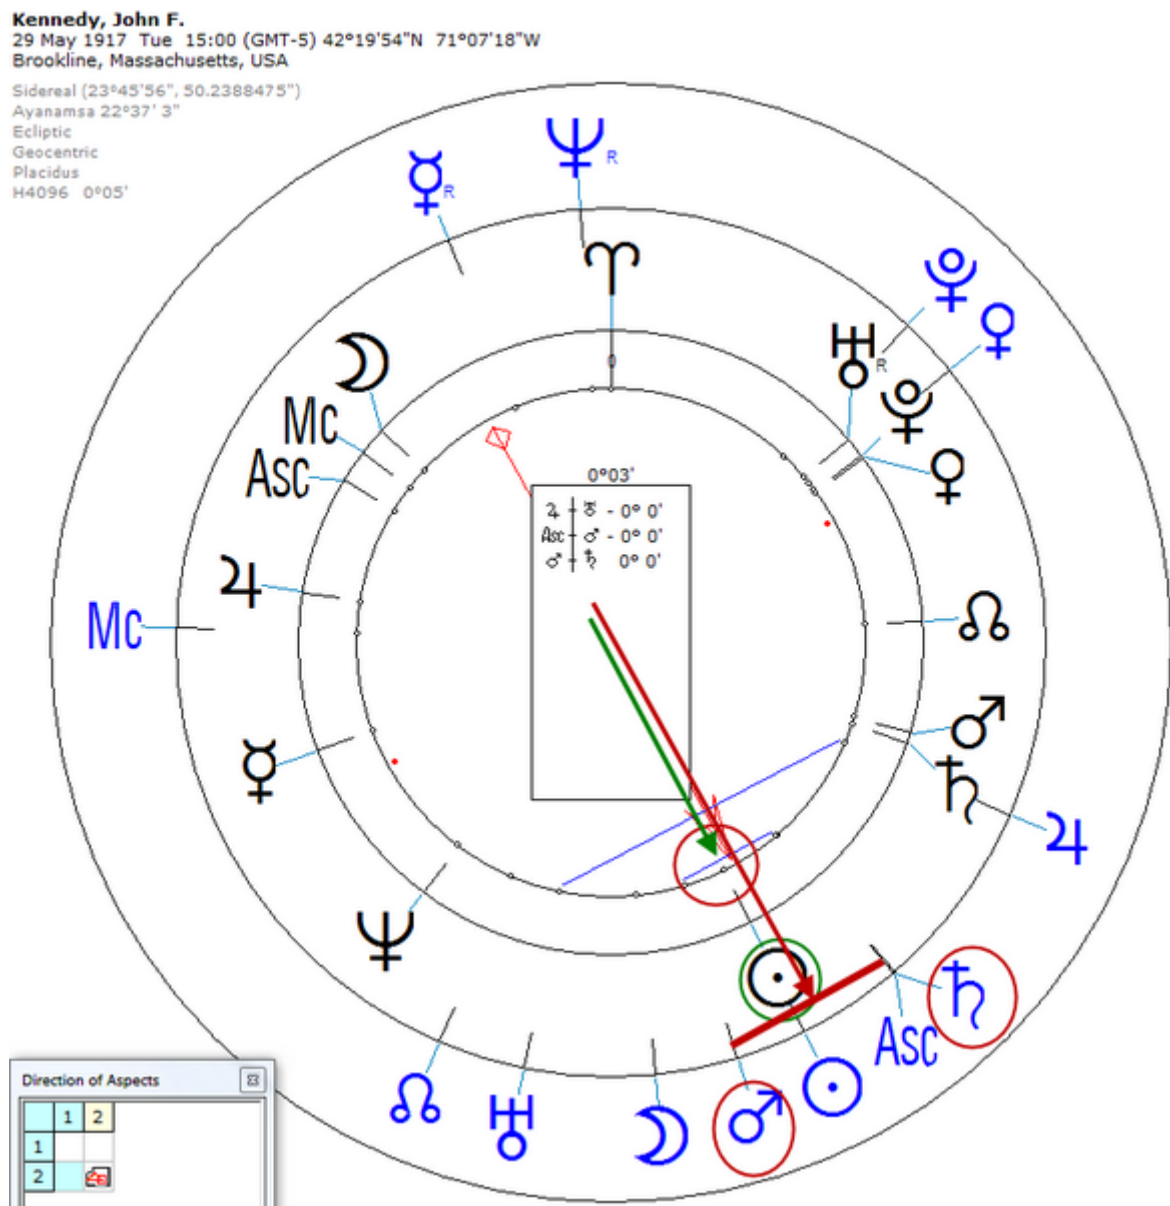

This example is so important that we made the correction with harmonic 524288. It will also happen that you have to use this harmonic too.

How do we get this time 15:00:59 ?

Step 1 :

We always look, the given time with the harmonic 4096 for progressions and solar, lunar etc.

Natal sun is with solar MA / SA not exact. That's why we have to take a minute later and we bring the sun on a red pointer.

Step 2 :

In this step the birth time is 15:01:00.

We have to search the death time between 12:30 and 13:00.

We proceed until transit sun, transit MA/SA and radix sun are in red points (number 1 and 2) or between 2 points (number 3) exact.

Kennedy, John F.

29 May 1917 Tue 15:01 (GMT-5) 42°19'54"N 71°07'18"W

Ayanamsa 22°37' 3"

Ecliptic

Geocentric

Placidus

H262144 0°

Step 3 :

In this step the birth time is 15:01:00 and death time 12:36:33

Now we look with harmonic 524288

As we see here suns are exact but MA/SA with suns not exact.

if we take back both suns one second, then we have first picture above.

Kennedy, John F.

29 May 1917 Tue 15:01 (GMT-5) 42°19'54"N 71°07'18"W
Brookline, Massachusetts, USA

Sidereal (23°45'56", 50.2388475")

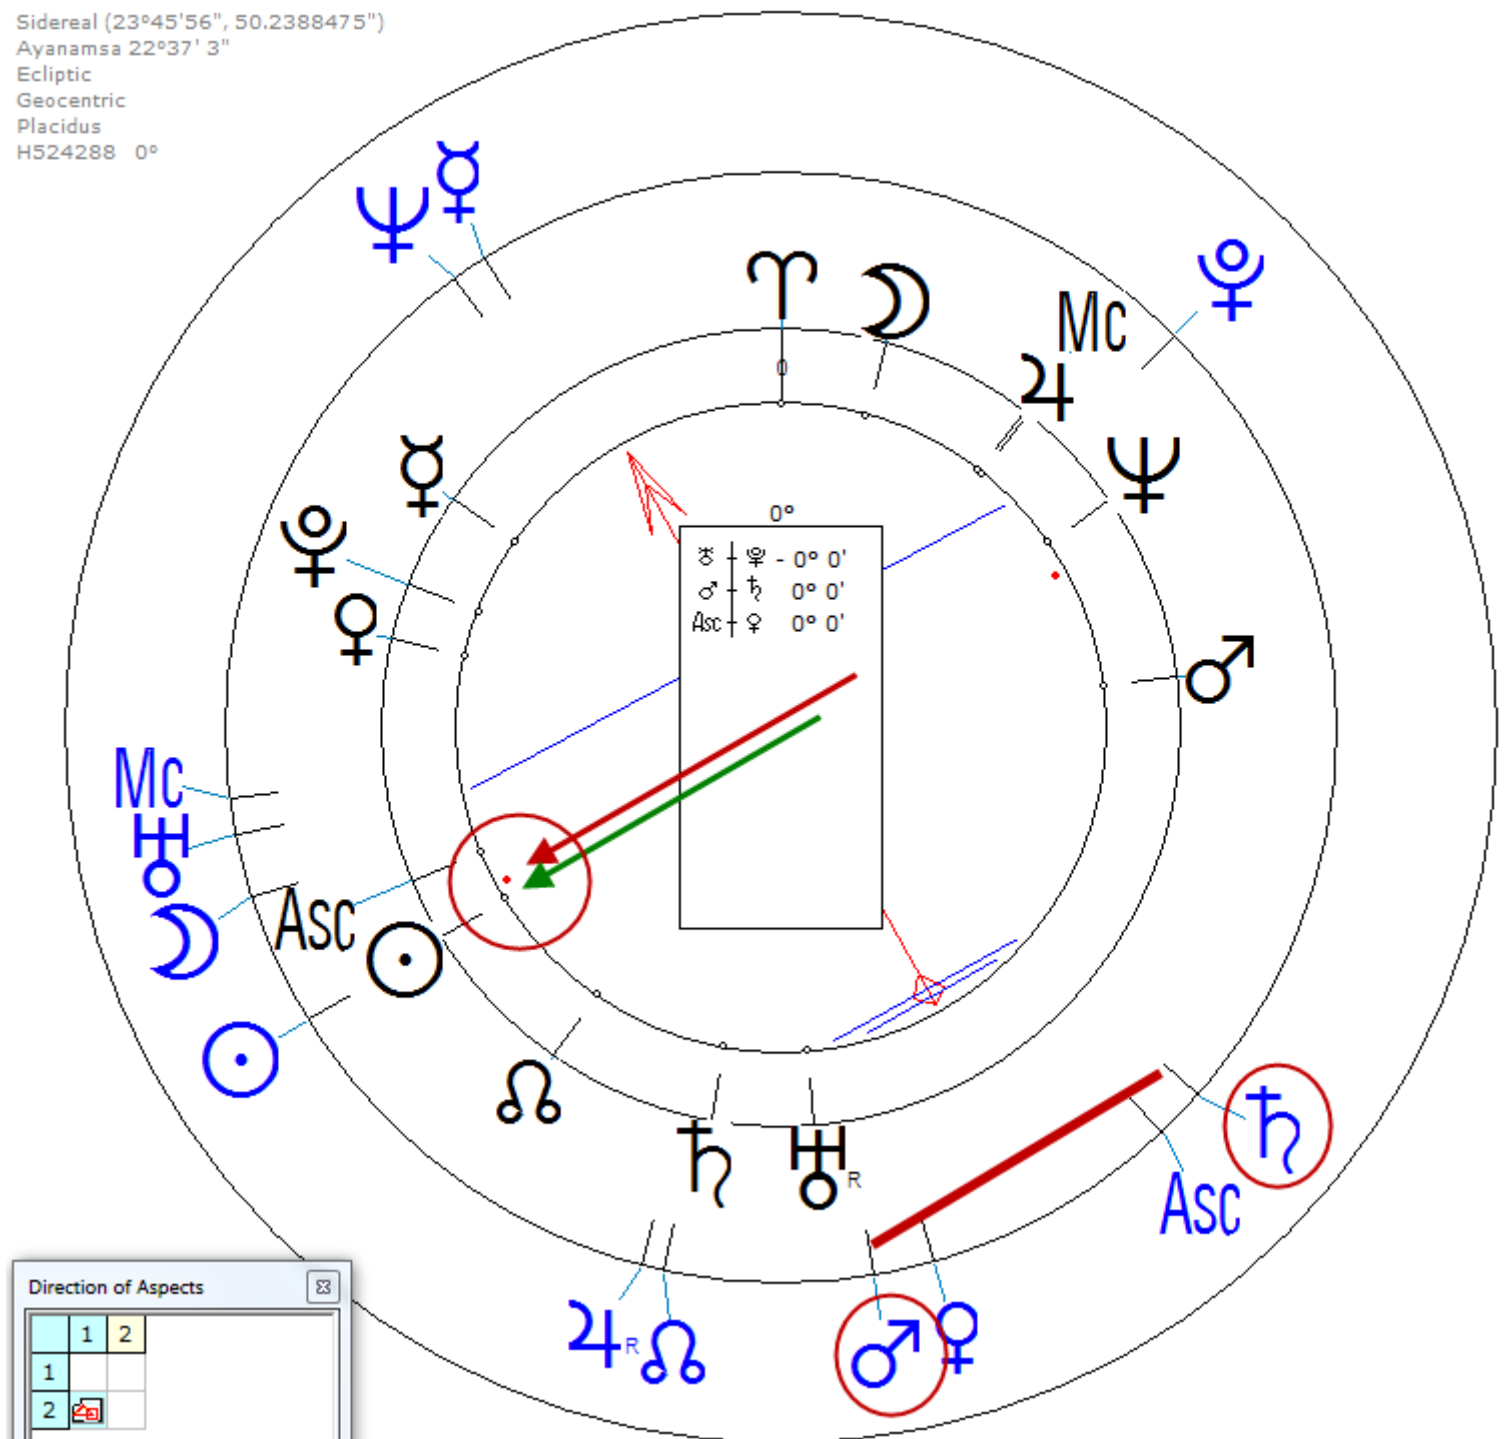

Ayanamsa 22°37' 3"

Ecliptic

Geocentric

Placidus

H524288 0°

Step 4 :

In this step we have to control this possible birth time with progressions, solar etc. We take always deaths, marriage, separations and births in the family.

We take first Patrick's death time and compare with the birth time of John F. Kennedy:

Kennedy, Patrick B.

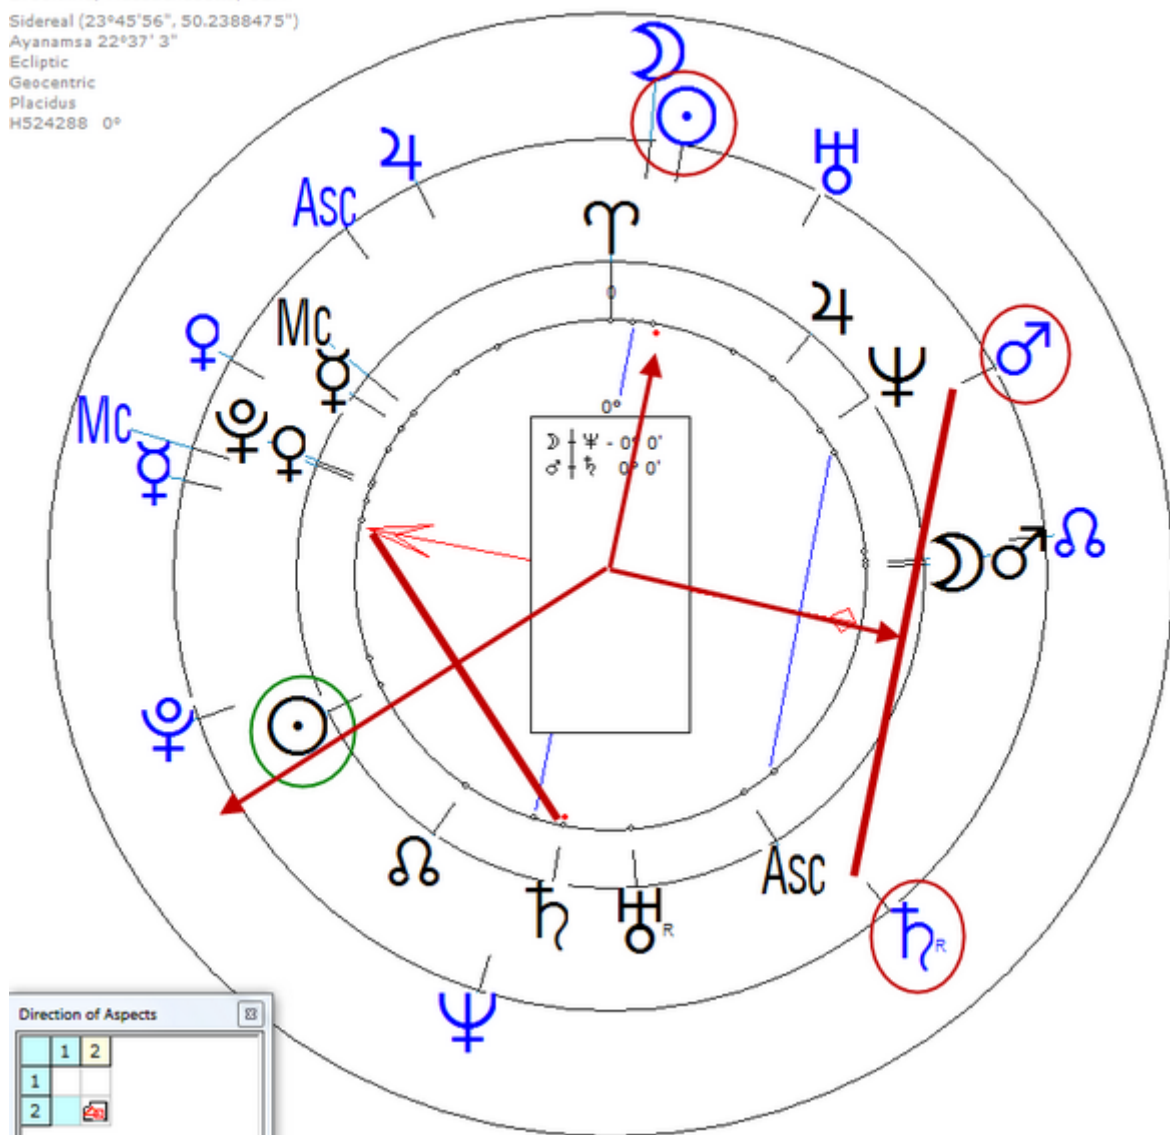

The third child, born six weeks premature to John and Jacqueline Kennedy. Patrick had Hyaline Membrane Syndrome and died of respiratory problems 8/09/1963 at 4:04 AM EDT.

Harmonic 524288

John F. Kennedy's birth time : 15:00:59

Patrick B. Kennedy's death time : 04:04:00

Kennedy, John F.
29 May 1917 Tue 15:00:59 (GMT-5) 42°19'54"N 71°07'18"W
Brookline, Massachusetts, USA
Sidereal (23°45'56", 50.2388475")
Ayanamsa 22°37' 3"
Ecliptic
Geocentric
Placidus
H524288 0°

As we see picture above : transit MA/SA = transit SU natal SU

There are two possible options. Either Patrick 's death time is correct, John's birth time is wrong, or Patrick 's death time is wrong.

To check it out, which option is right, we'll take John 's birth time as correct and we'll correct Patrick 's death time. And for the second, we'll take John's birth time as correct and correct Patrick's death time. Then we have two birth times and two death times.

First option :

John F.Kennedy' s birth time : 15:00:59 Patrick B. Kennedy' s death time : 04:02:32

Second option :

John F.Kennedy' s birth time : 15:00:53 Patrick B. Kennedy' s death time : 04:04:00

There were 5 deaths in Kennedy family. We will now compare the new moons before deaths with both birth times , namely 15:00:59 and 15:00:53.

New moons must clearly demonstrate true birth time.

Last new moon before his son Patrick death

20.07.1963 16:42:42 GMT-4 4°09'00"Cnc New Moon transit to natal

Second option :

John F.Kennedy' s birth time : 15:00:53

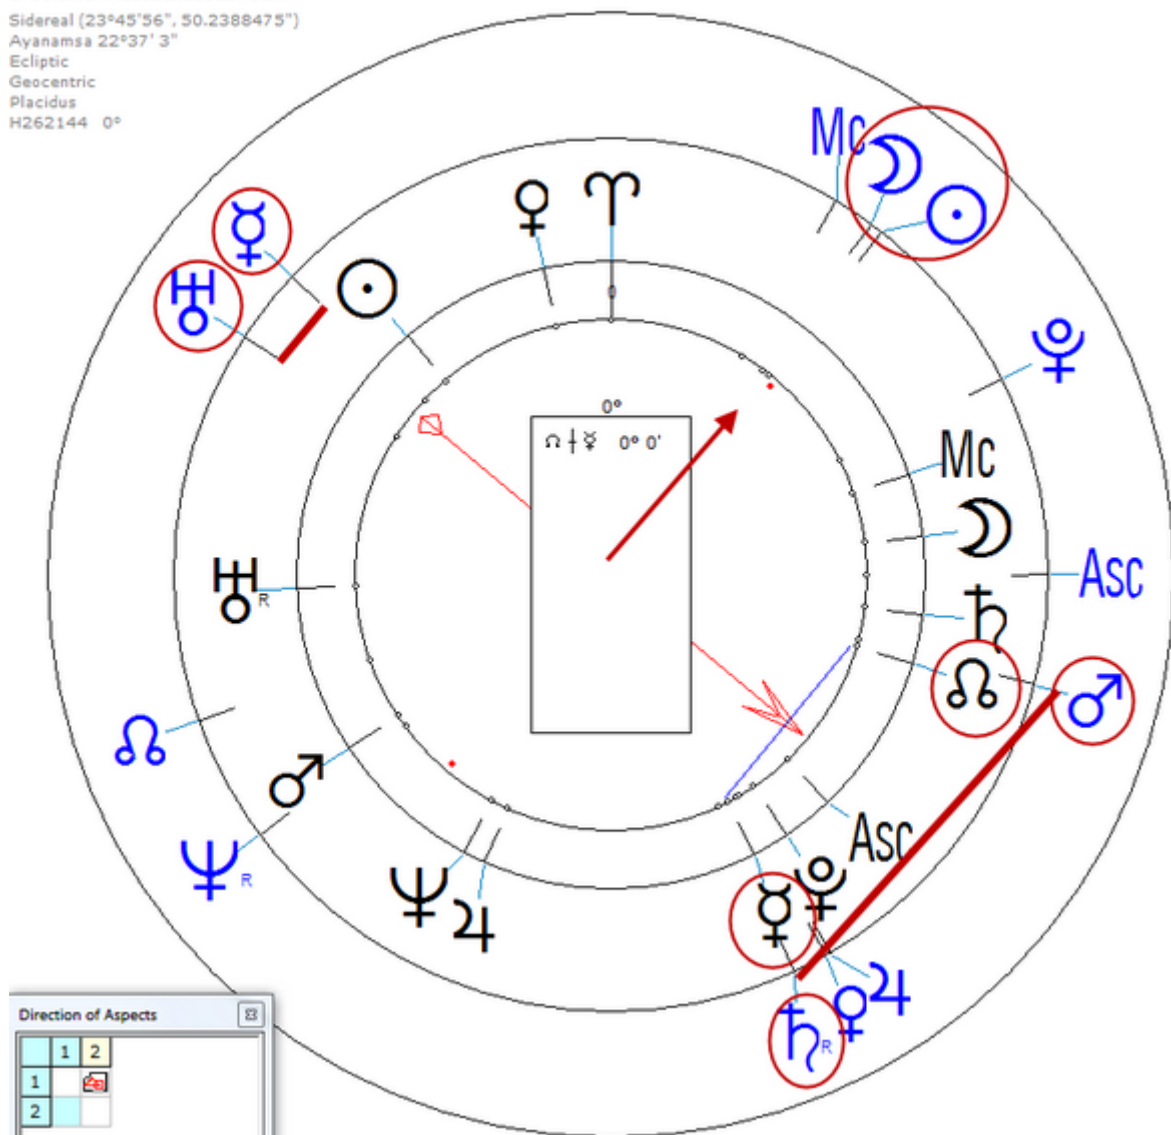

Harmonic 262144

$$\odot_t = \text{☾}_t = \text{♂}_t / \text{♂}_t = \text{♀}_t / \text{♂}_t = \text{♀}_n / \text{♂}_n;$$

$$\text{♂}_t = \text{♀}_t = \text{♀}_t$$

Transits show clearly death of son.

Kennedy, John F.

Placidus

H262144 0°

Last new moon before his wife Jacqueline Kennedy Onassis death
10.05.1994 13:06:34 GMT-4 26°06'59"Ari New Moon

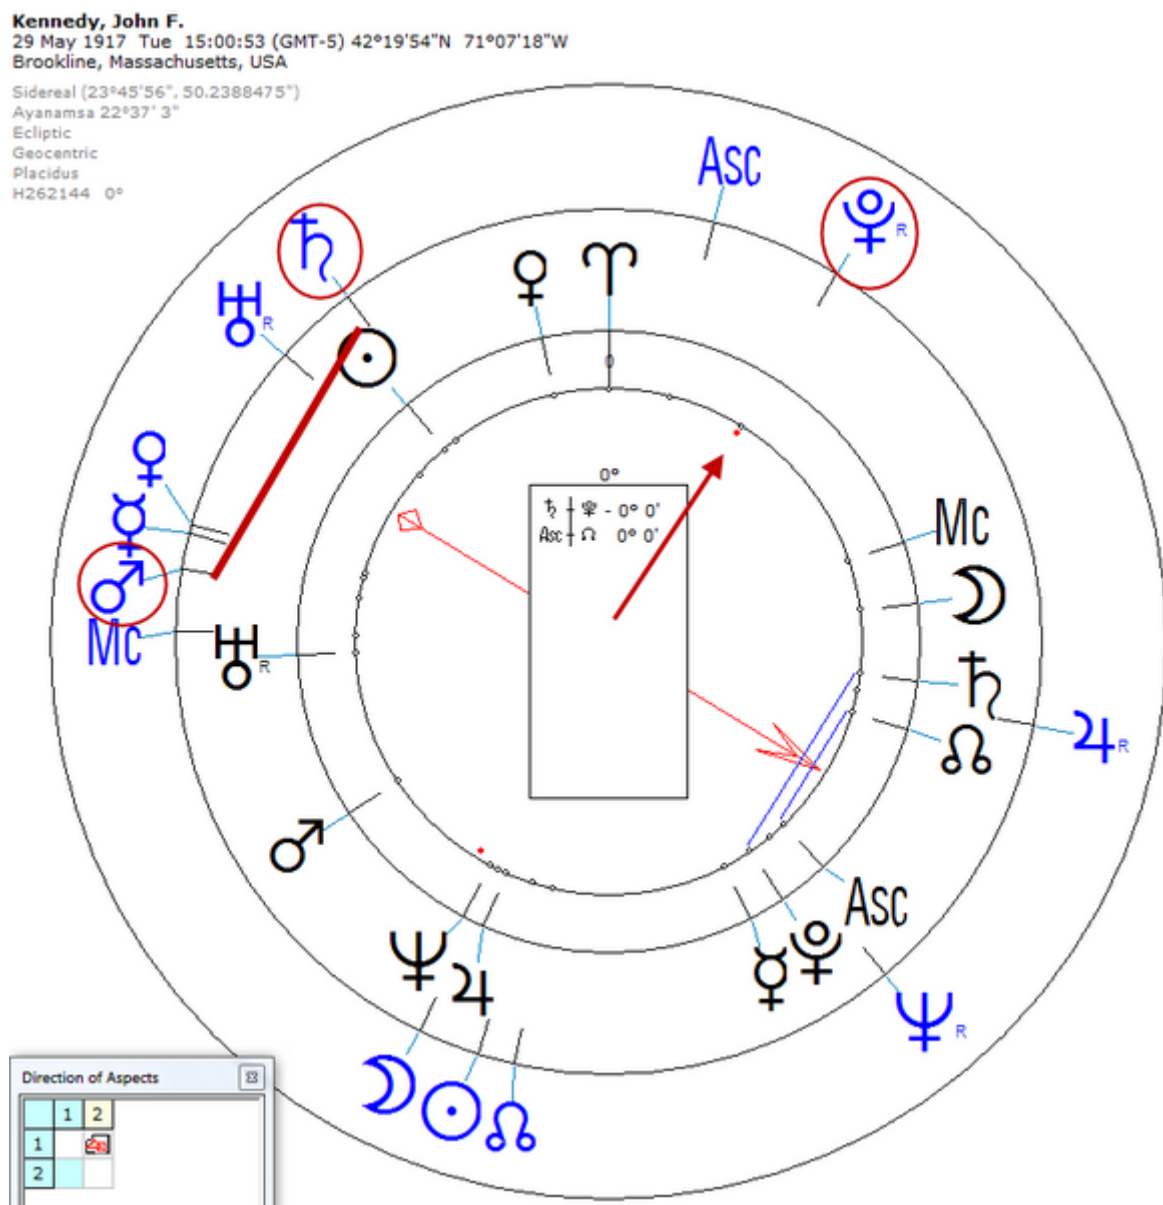

Second option:

John F.Kennedy' s birth time : 15:00:53

Harmonic 262144

$$\♂_t / \text{♄}_t = \text{♄}_n / \text{♀}_n = \text{AC}_n / \text{♁}_n$$

we have to focus our attention on venus and moon

Last new moon before his wife Jacqueline Kennedy Onassis death
10.05.1994 13:06:34 GMT-4 26°06'59"Ari New Moon

First option:

John F. Kennedy's birth time : 15:00:59

Harmonic 262144

$$\begin{aligned} \text{♂}_t / \text{♂}_t &= \text{♂}_n / \text{♀}_n = \text{MC}_n / \text{♂}_n = \text{♀}_n / \text{♂}_n; \\ \text{♂}_t &= \text{♀}_n \end{aligned}$$

Here one sees clearly, it is about wife and although death of the wife. That the new moon shows itself over a natal sun as with his son John F. Kennedy Jr. , sun not only represents himself, but also his family too, because the suns in a family have to be exact to each other. And in harmonic 65536 is New moon = natal Jupiter (DC Lord) and in harmonic 4096 is new moon MA/SA = natal Jupiter = natal moon.

Kennedy, John F.

Step 5 :

In this step you have to find a possible second death time and compare it with the first death time. If the birth time is correct, then until 13 o'clock second possible death time 12:48:16 and third possible death time would be 12:58:48.

We skip this step as if birth time were correct. Then we go the next step on.

Step 6 :

I published my theories three years ago. I do not want to write why these theories in the astrological world have been ignored. But I know what reasons they could have those who call themselves astrologers.

My theories are no longer theories but they are true astrological rules.

Two of these rules says:

1-Family member's sun position on their birth chart has to be in exact harmonic.

2-A country's all presidents' sun positions in exact harmonic with each other's and the country's sun position.

Following these two rules, we are able to, firstly, correct the birth times of all Kennedy family members and the birth times of all US presidents (if birth times are known). Even we can find out true US horoscope. Here, with John Kennedy's birth time I'll just correct birth time of Caroline Kennedy and a US president.

Death by Homicide 22 November 1963 at 12:36:32 PM in Dallas

Lunar Return (harmonic 4096)

Trump, Donald

14 June 1946 at 10:54 (= 10:54 AM)Jamaica Hospital Queens (Queens County), New York, 40n42, 73w4859

Marriage 22 January 2005 at 7:00 PM in Palm Beach, FL (Melania Knauss)

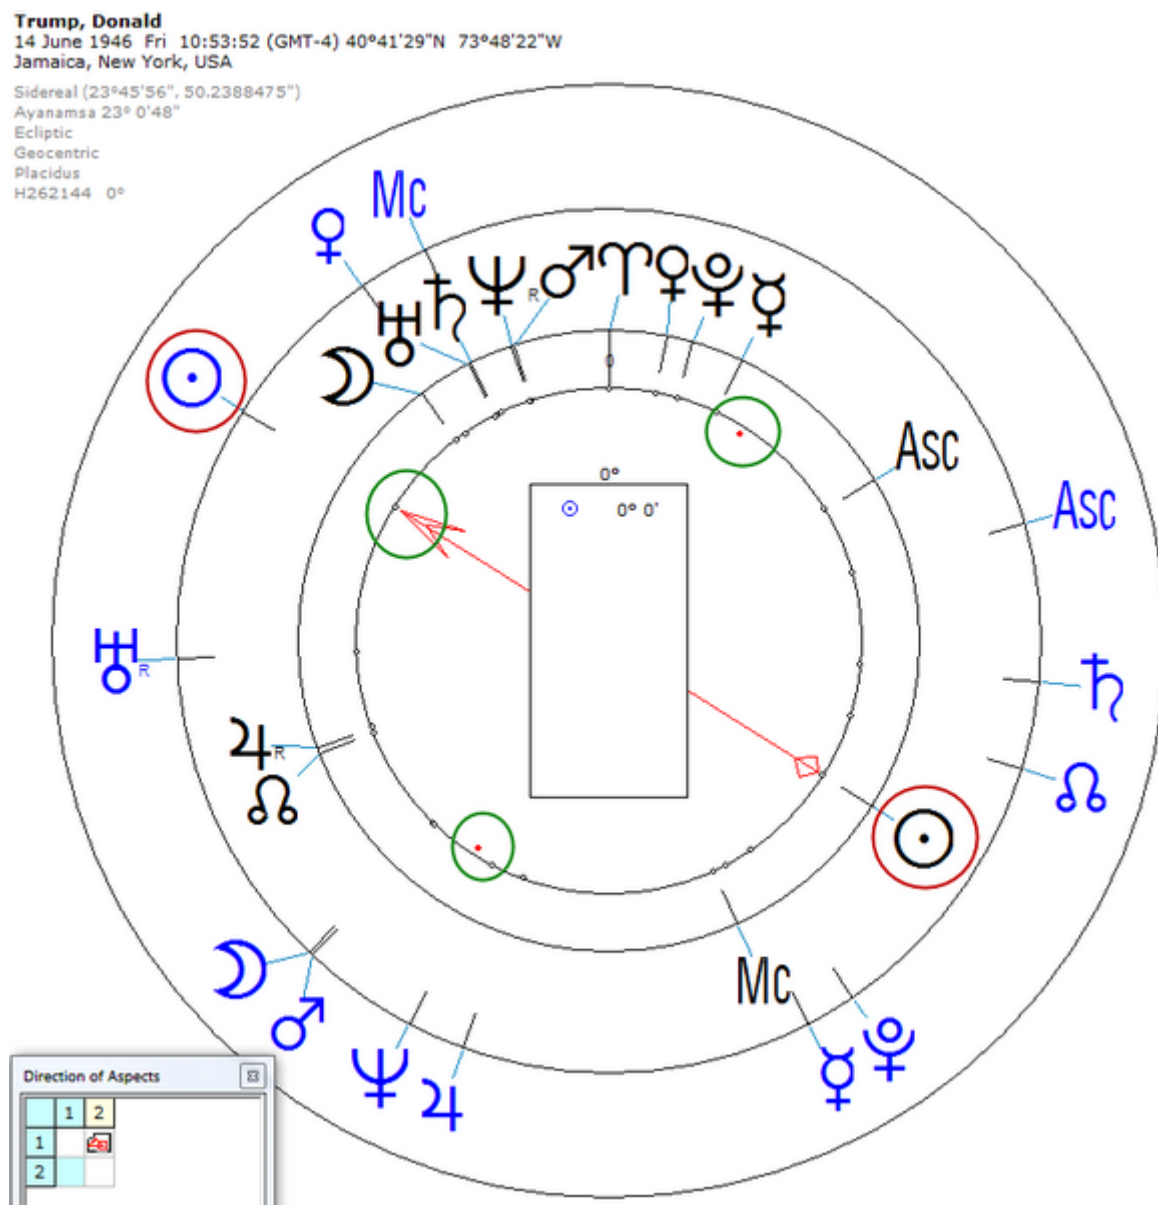

https://www.astro.com/astro-databank/Trump,_Donald

Harmonic 262144

The corrected birth time of John F.Kennedy 15:00:59 (as transit)

The corrected birth time of Donald Trump 10:53:52

Of course there are three other options (marked with green). But after checking with events, the correct birth time must be 10:53:52.

When it comes to marriage, then we look

♀, ♂, ♀/♂, AC/DC axis and AC-DC Lords. In addition, we also have to look at ♀, because we do not know whether there will be a divorce or not. If ♀ is there, eventually it will be divorced.

The problem is, which ruler should we take for AC and DC ?

I can tell you 100% safety, neither tropical nor sidereal rulers are proper. The funny thing is, both systems sometimes have proper rulers. Therefore, they do not come to the fact that some rulers are wrong. They are looking for the error elsewhere.

A short story :

Someone watched Nasrudin searches something on the ground. "What have you lost, Nasrudin?" asked he. "My key," the mulla said. Both were now on their knees and searched.

After a while, the other asked, "Where did you actually lose him?"

"In my house."

"But why are you looking for him out here?"

"Because it's lighter here."

That is why there are many different Ayanamsa in the East, and that is why the ruling system is changed every 100 years in the West and there are so many house systems.

If an astrologer can not 100 percent determine between two different birth times, which is the right one, he must his astrological system change until he finds right system, and he should be open to the unimaginable, because astrology is not a religion rather mathematically exact procedure more accurate and exact than you can imagine.

I take ♂ for ♂ as ruler and ♀ for ♀.

Marriage 22 January 2005 at 7:00 PM in Palm Beach, FL (Melania Knauss)

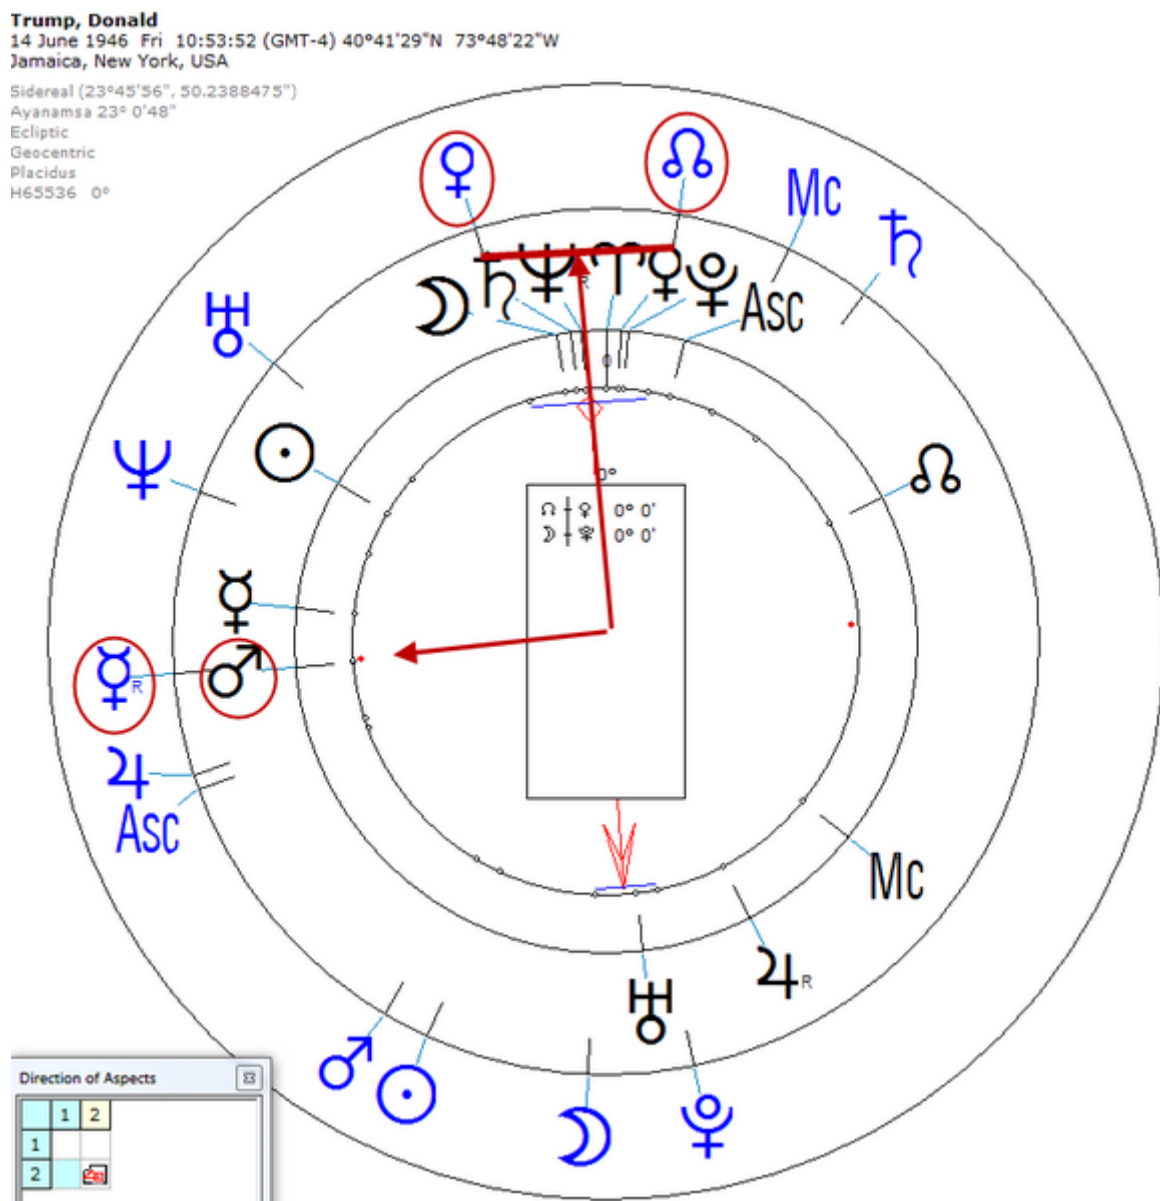

Donald Trump has AC (Ω) Lord $\♂$ and DC (\approx) Lord $\♀$

Secondary (harmonic 65536)

AC Lord $\♂_n$ = DC Lord $\♀_p$ = $\♀_p/\Omega_p$

Where is AC Lord $\♂_p$?

AC Lord $\♂_p = \♂_n/4_n = \odot_n$ (he is happy)

Solar (harmonic 65536)

Solar AC = Solar ♀ = Solar ♀/♂ = ♀_n/♂_n = ♂_n/♀_n

Solar ♂ = Solar MC = ☉_n/♂_n; Solar ♀ = Natal AC

Solar ♀ = ☉_n/♀_n = ♀_n = ♀_n

All planets that show the marriage (solar and natal), they are perfect connected, if ♀/♂ was not there. He will divorced sometime.

Trump, Donald

14 June 1946 Fri 10:53:52 (GMT-4) 40°41'29"N 73°48'22"W

Leo, Alan

7 August 1860 at 05:49 (= 05:49 AM)Westminster, England, 51n30, 0w09

British astrologer, businessman and author, a Theosophist who is considered the father of modern astrology.

Alan Leo died on August 30, 1917, 10:00 AM in Bude, England

Source Notes

Sy Scholfield quotes from "The Life and Work of Alan Leo" by his widow Bessie Leo (London: Modern Astrology, 1919), p. 177: "Alan Leo was born at Westminster on August 7, 1860, and Mr Lacey has mentioned that the time originally given was 6 a.m. The result of rectification was to change the ascendant from the beginning of Virgo to the end of Leo, and the accompanying map, set for approximately 5.49 a.m., is that which was considered by Mr Leo himself to be his true horoscope."

https://www.astro.com/astro-databank/Leo,_Alan

When in this world like Clinton, Bush, Trump, Merkel ... become head of state, naturally, like Alan Leo a businessmen are recognized as the father of modern astrology. It is totally normal.

Because he wants to have Leo-AC, therefore corrects father of modern astrology his birth time 11 minutes, which is then true horoscope.

Then you can imagine, if father is like that as the children are.

Currently the astrologers who want to correct their birth time, but can not, then change they the house systems that use or correct each year once (or several times) because something is still wrong.

They then say that they can not be objective. Then they ask other 4 astrologers. The 4 astrologers all come with different corrections.

The other 4 astrologers apparently can not be objective either. 

What do we do now ? We search other house systems ? But maybe we'll look at the Asteroids (Chiron etc.) ? other house system ? more Orb ?

Eventually we find then a birth time what we like, maybe not.

Until the next transit or progression, which shows nothing, although has much happened. Transits show nothing anyway, right ?

Then they search further.

He could not find his own birth time until his death , but he was a great astrologer , he has also corrected many birth times and had a lot of students.

Clydesdale, Victoria Elizabeth

16 May 1990 at 17:08 (= 5:08 PM Stirling, Scotland, 56n07, 3w57

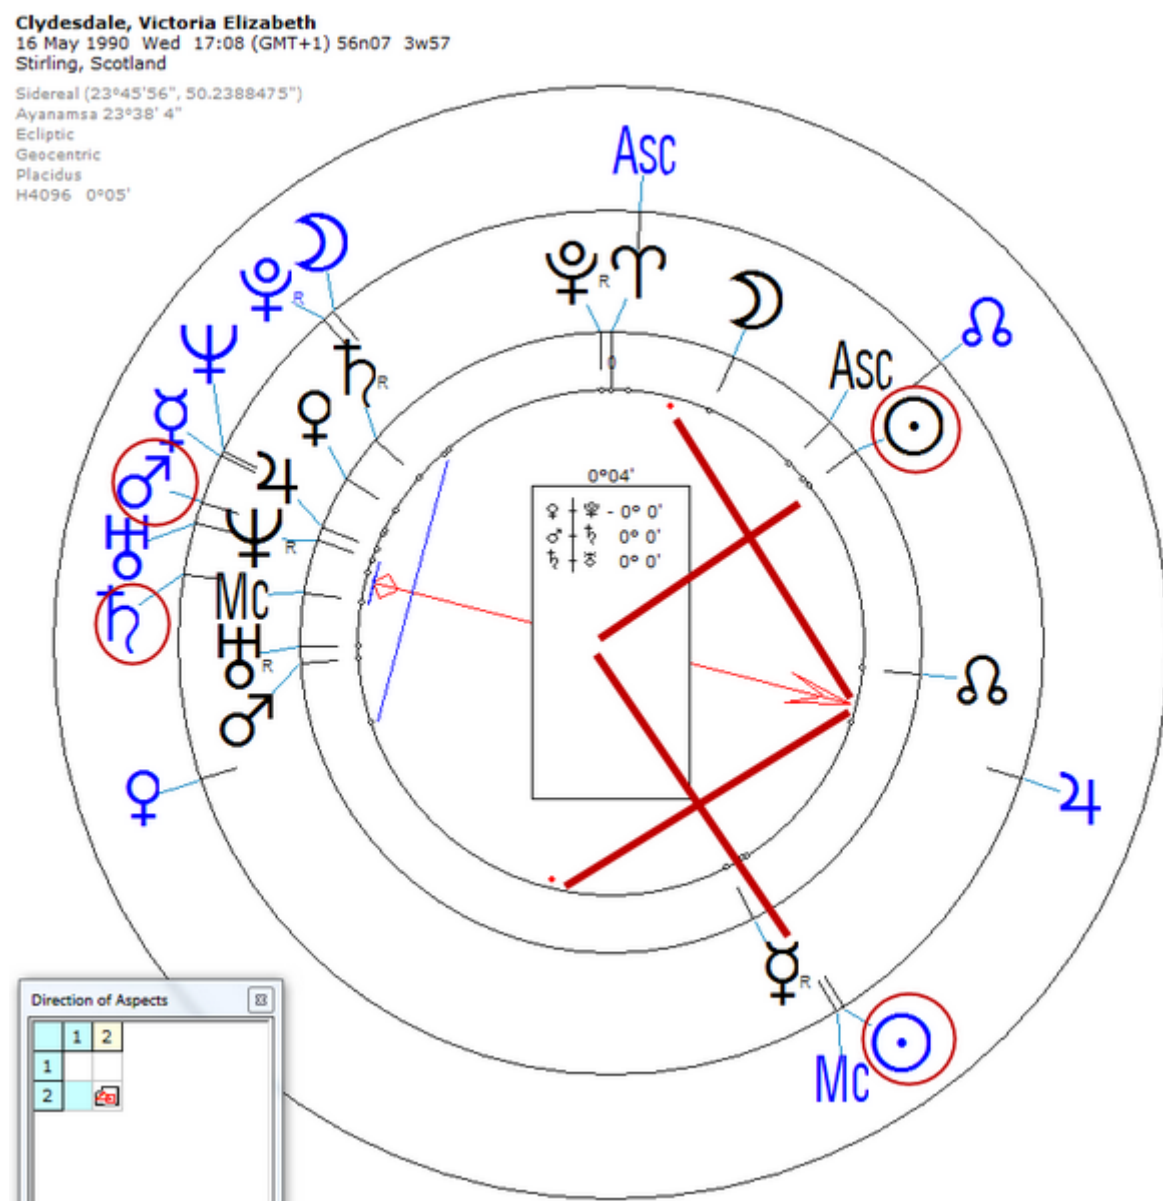

Scottish child murder victim in the Dunblane school massacre.

Killed on 13 March 1996 between 9:32/9:35 am.

https://www.astro.com/astro-databank/Clydesdale,_Victoria_Elizabeth

Because the death time is accurate to a few minutes, we first look at 4096 harmonic, where are the transit and natal sun.

transit and natal sun are almost between two harmonic point that's why we look another harmonic (65536)

After we take the death time one minute and one second in 65536 harmonic, looks like this.

Harmonic 65536

Clydesdale, Victoria Elizabeth

16 May 1990 Wed 17:08 (GMT+1) 56n07 3w57
Stirling, Scotland

Sidereal (23°45'56", 50.2388475")

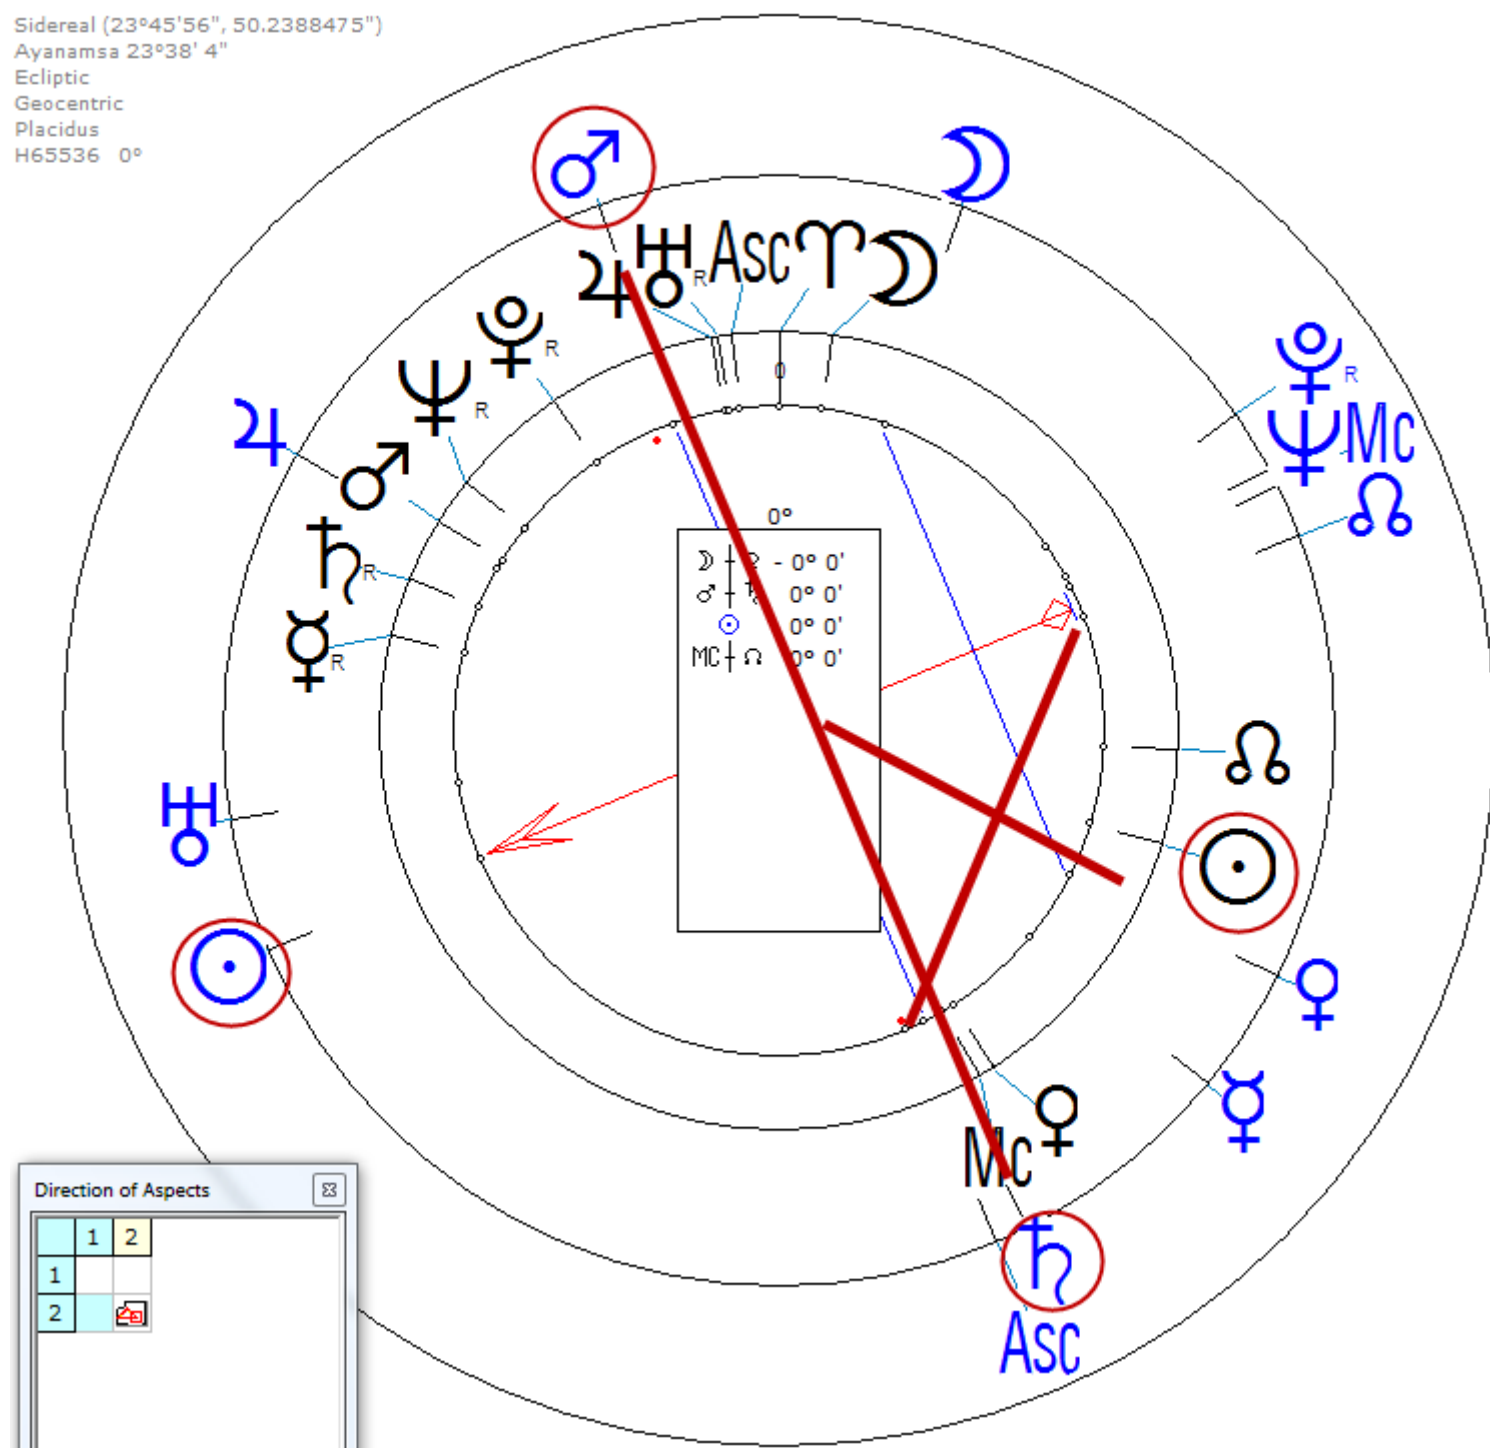

Ayanamsa 23°38' 4"

Ecliptic

Geocentric

Placidus

H65536 0°

Here we need the birth time take only 8 seconds back.

After correction :

corrected and exact birth time : 17:07:52

corrected and exact death time : 09:30:59

Harmonic 131072

Clydesdale, Victoria Elizabeth

16 May 1990 Wed 17:07:52 (GMT+1) 56n07 3w57

New Moon = ♀t = ♀n/♀n = ☉n/♀n = ☾n

Why is mercury there ?, and when you look at the first picture (solar) again, then you see mercury at the AC, why ? because Mercury is AC lord. As I wrote on my homepage for three years, Mercury rules all air signs, Gemini, Libra and Aquarius. And at death mostly AC and AC lord in interactions. Mohandas Gandhi has Libra AC.

Astrid, Queen of Belgium

17 November 1905 at 16:52 (= 4:52 PM)Stockholm, Sweden, 59n20, 18e03

Swedish-Belgian royalty, married King Leopold III of Belgium November 1926.

While motoring with him in Switzerland she showed him a map, he drove into a tree and she was killed 8/29/1935; 9:15 AM, Kusunacht, Switzerland.
